

# **Unraveling the Evolutionary Dynamics of Toxin-Antitoxin Systems in Diverse Genetic Lineages of *Escherichia coli* including the High-risk Clonal Complexes**

Anuradha Singh, Aditya Kumar Lankapalli, Suresh Kumar Mendem, Torsten Semmler, Niyaz Ahmed

## **Supplementary files captions/legends**

**File S1.** NCBI metadata of the genomes under analysis

**File S2.** Abbreviations

**File S3.** Toxins presence absence, toxin count per strains, percent prevalence and statistics

**File S4.** Copy number variation in toxin hits

**File S5.** Antitoxin count associated with different toxin hits and Pfam annotation
